NOTE TO: Colonel White

SUBJECT: Cook for DCI

1. Personnel tells me that they have one and possibly two cook prospects in the mill again for the Director's dining room. I am alerting Security as soon as I get their names, and will see that their clearances get prompt attention. However, at very best, it will probably be the end of April before we would know on either one. [REDACTED] the present cook, has seen these prospects and given his blessing.
